LUMOS MIRRORS by
PINE CREST GLOBAL

INTRODUCING OUR BESPOKE ILLUMINATED MIRROR SERVICE FROM LUMOS, TAILORED SPECIFICALLY FOR HOSPITALITY PROJECTS. DESIGNED WITH METICULOUS ATTENTION TO DETAIL, OUR CUSTOM MIRRORS BLEND FUNCTIONALITY WITH ELEGANCE TO ELEVATE ANY SPACE. CRAFTED TO MEET THE UNIQUE NEEDS OF EACH PROJECT, OUR MIRRORS NOT ONLY PROVIDE EXCEPTIONAL ILLUMINATION BUT ALSO SERVE AS STRIKING FOCAL POINTS, SEAMLESSLY INTEGRATING INTO ANY DESIGN AESTHETIC.

Welcome to Lumos Mirrors, where luxury meets value for money without compromise. Our exquisite collection of mirrors combines timeless elegance with modern design, ensuring that each piece not only enhances your space but also reflects your unique style. At Lumos, we believe that high-quality craftsmanship and affordability should go hand in hand, which is why we meticulously source the finest materials and employ skilled artisans to create mirrors that are both stunning and durable.

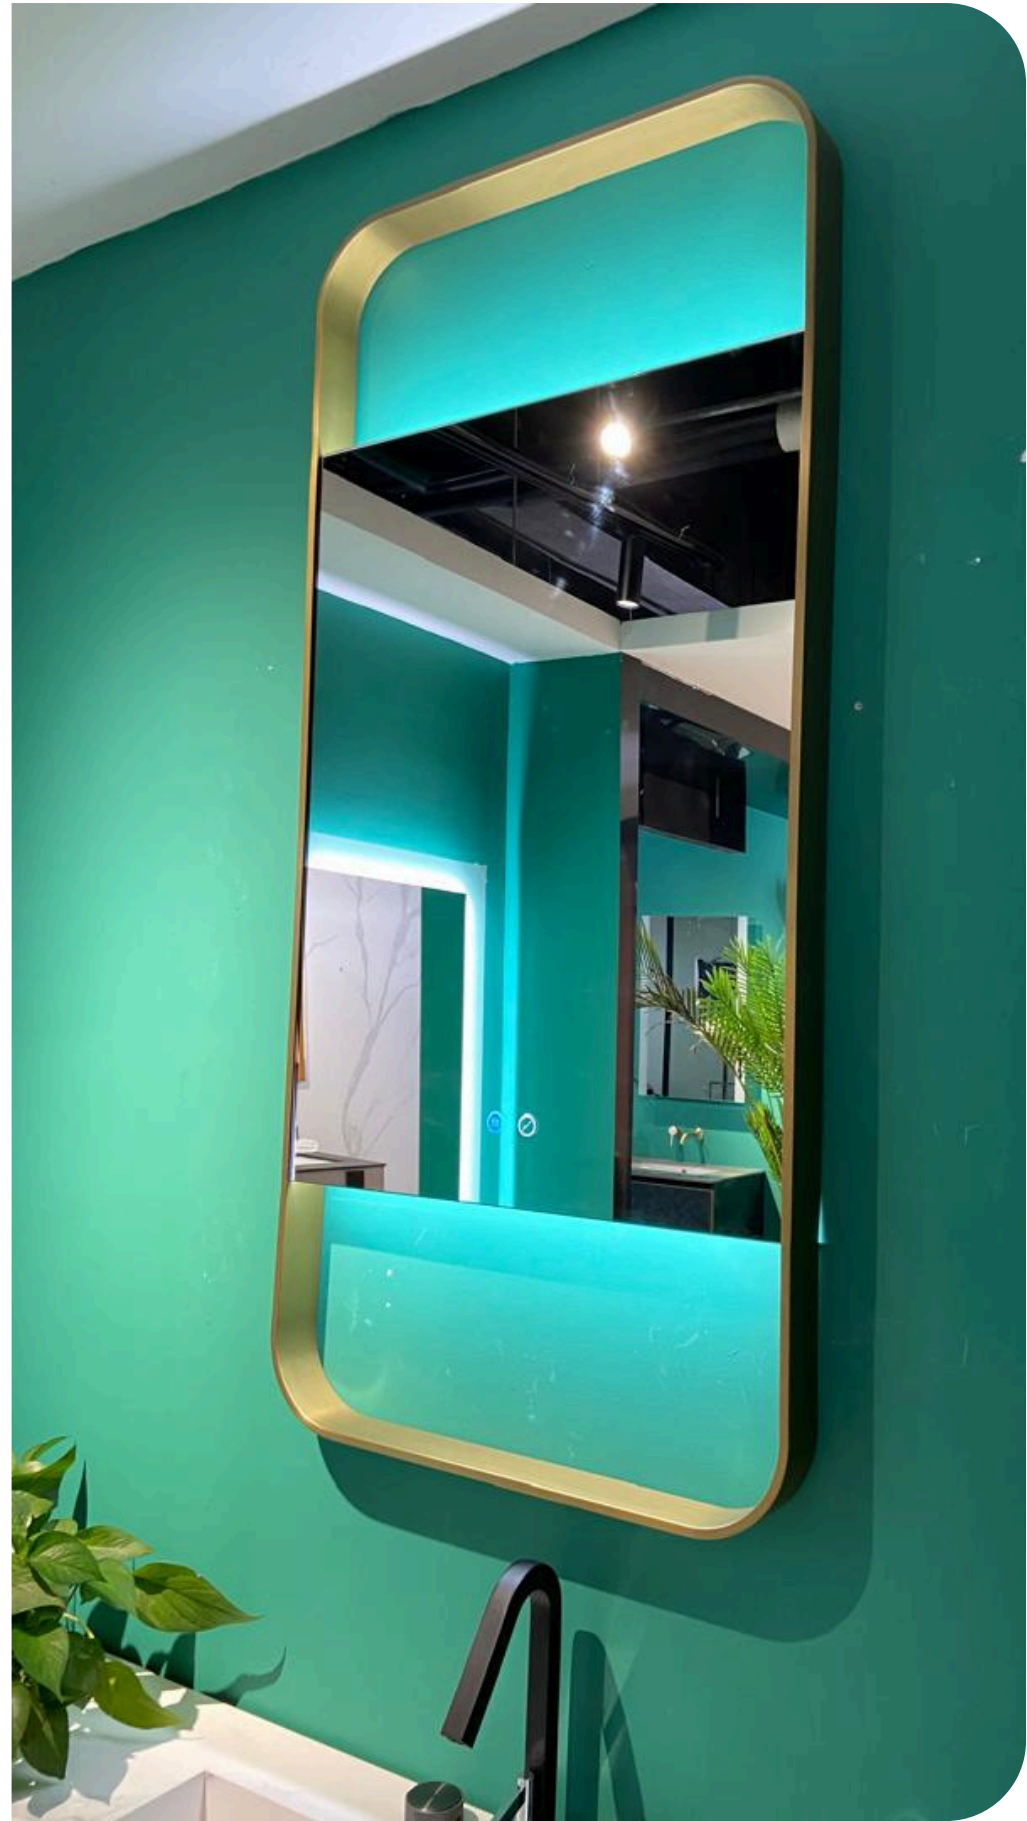

Our mirrors incorporate built-in LED lights that provide a soft, even illumination, making daily grooming tasks like shaving, makeup application, or skincare routines more efficient and enjoyable. Beyond their practical benefits, illuminated mirrors add a touch of sophistication and contemporary flair to any bathroom. They create a sense of spaciousness and luxury, enhancing the overall ambiance of the space. Available in various shapes, sizes, and styles, illuminated mirrors can seamlessly blend with different design themes, making them a versatile and stylish addition to any bathroom.

Lumos Mirrors is a design-led manufacturer dedicated to bringing your vision to life with impeccable precision. With a strong focus on creativity and craftsmanship, we ensure your intent is carried out 100% according to your unique designs. At Lumos Mirrors, we pride ourselves on our commitment to excellence and customer satisfaction, ensuring every piece we create is a true reflection of your design aspirations.

MAKE UP MIRRORS

Makeup mirrors are essential tools in the beauty and skincare routines of many individuals. Designed to provide a clear and accurate reflection, our mirrors can come equipped with magnification features and built-in lighting to enhance visibility. They are an invaluable asset for anyone looking to perfect their makeup application, grooming, or skincare regime.

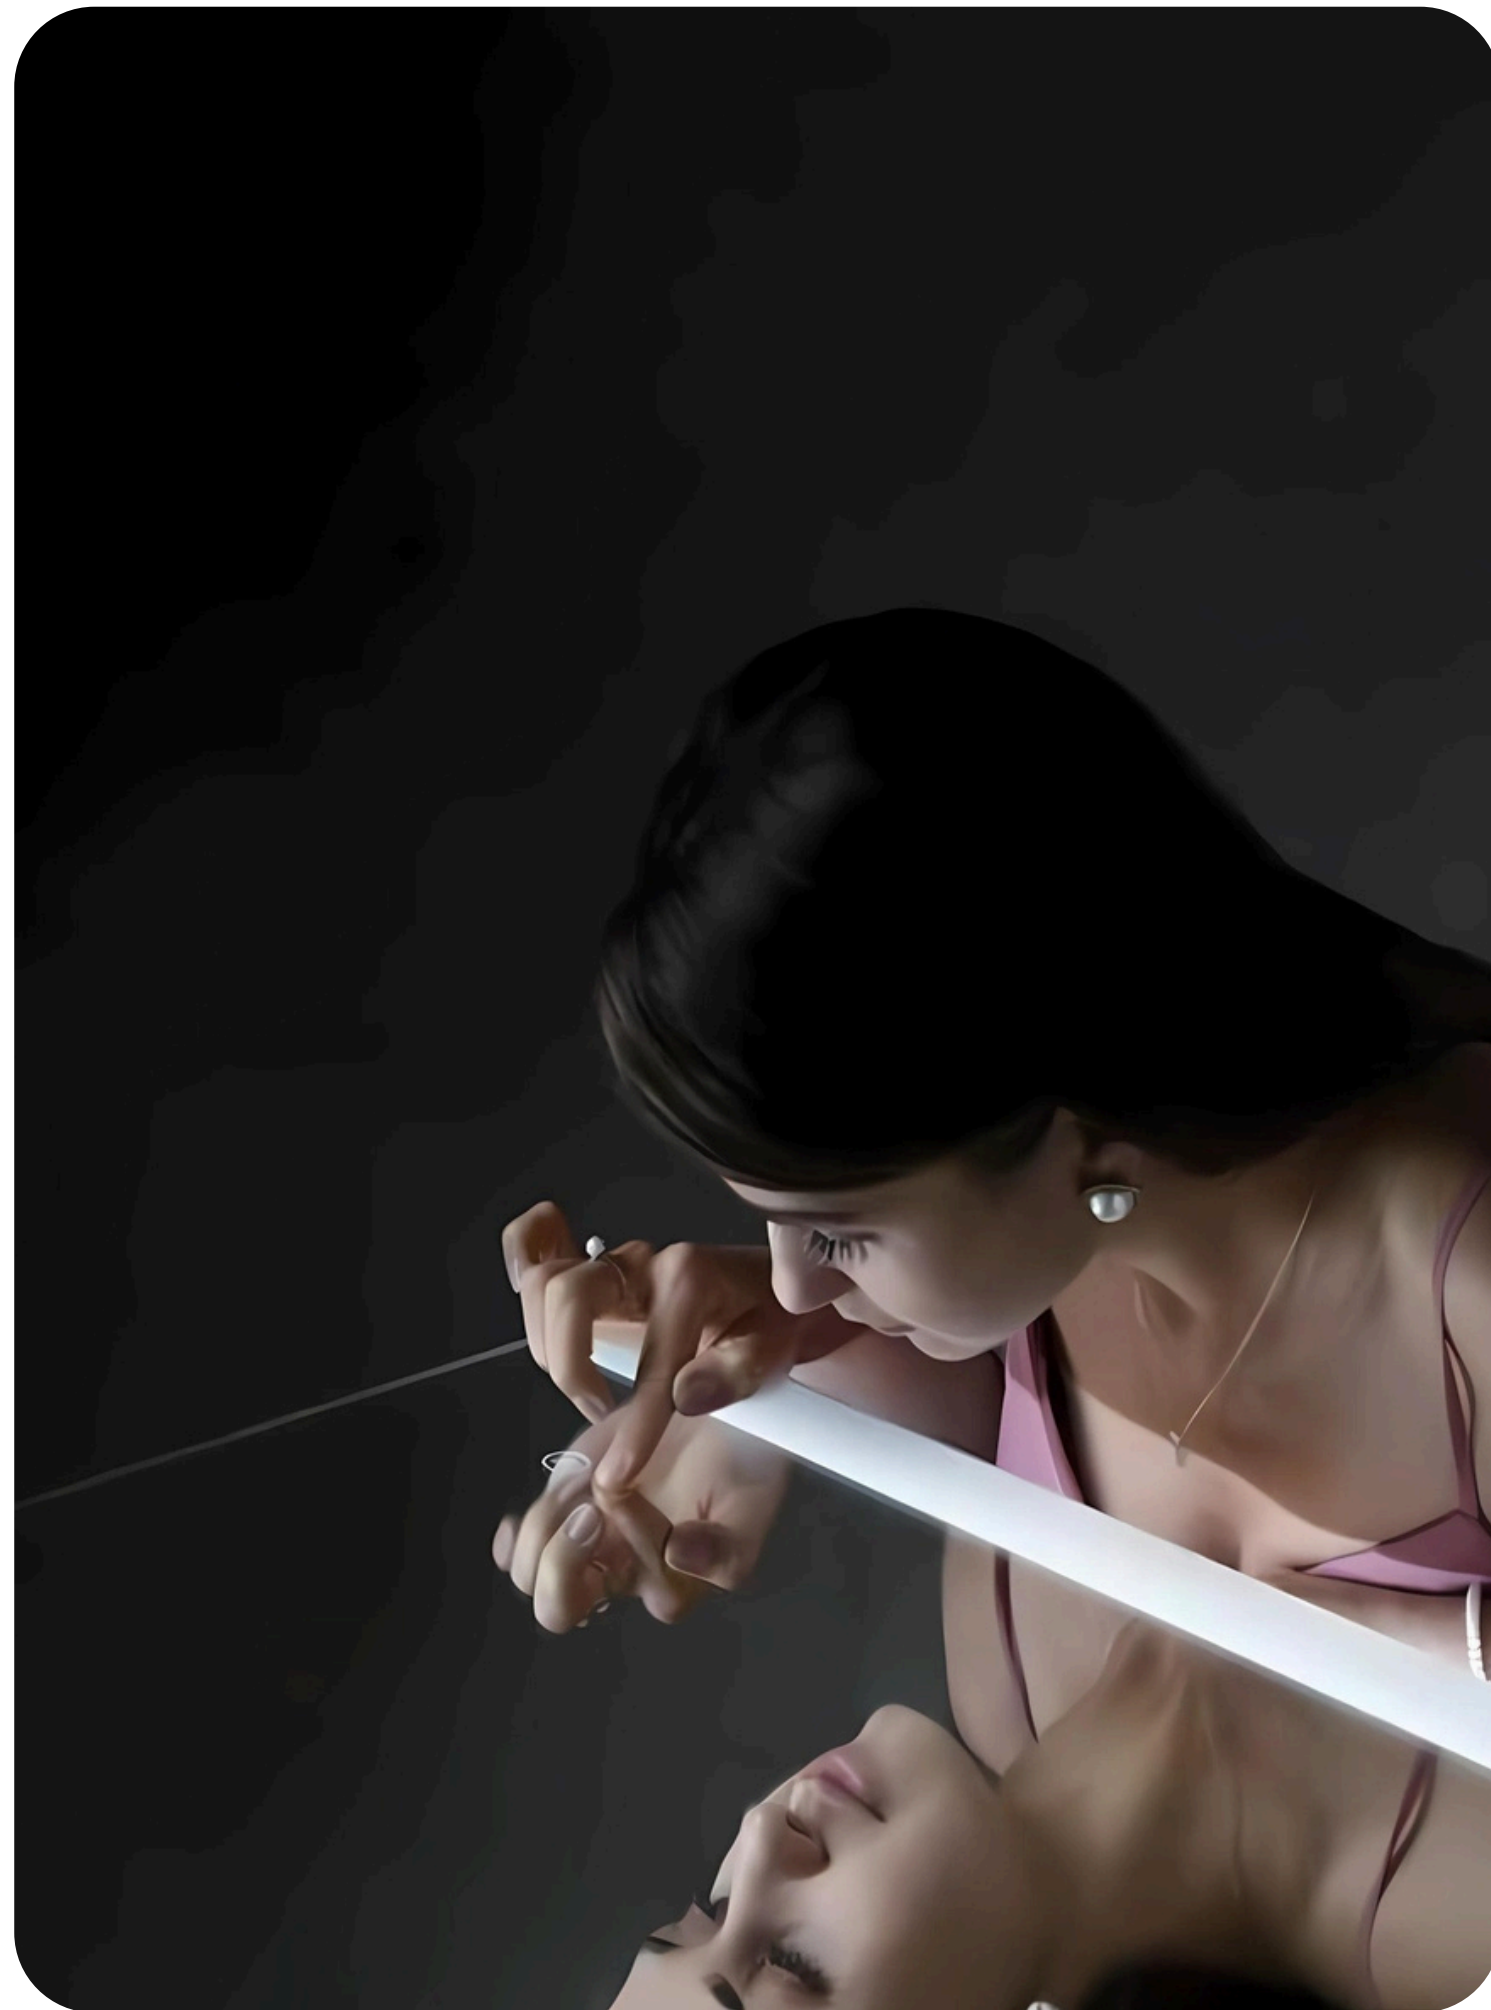

Our bespoke makeup mirrors are the epitome of luxury and personalization, designed to elevate your beauty routine. Each mirror is meticulously crafted to meet your specific needs and preferences, ensuring a unique and stylish addition to your vanity. Our customized leather-bound desktop makeup mirrors combine elegance and functionality, featuring high-quality leather in your choice of color and texture.

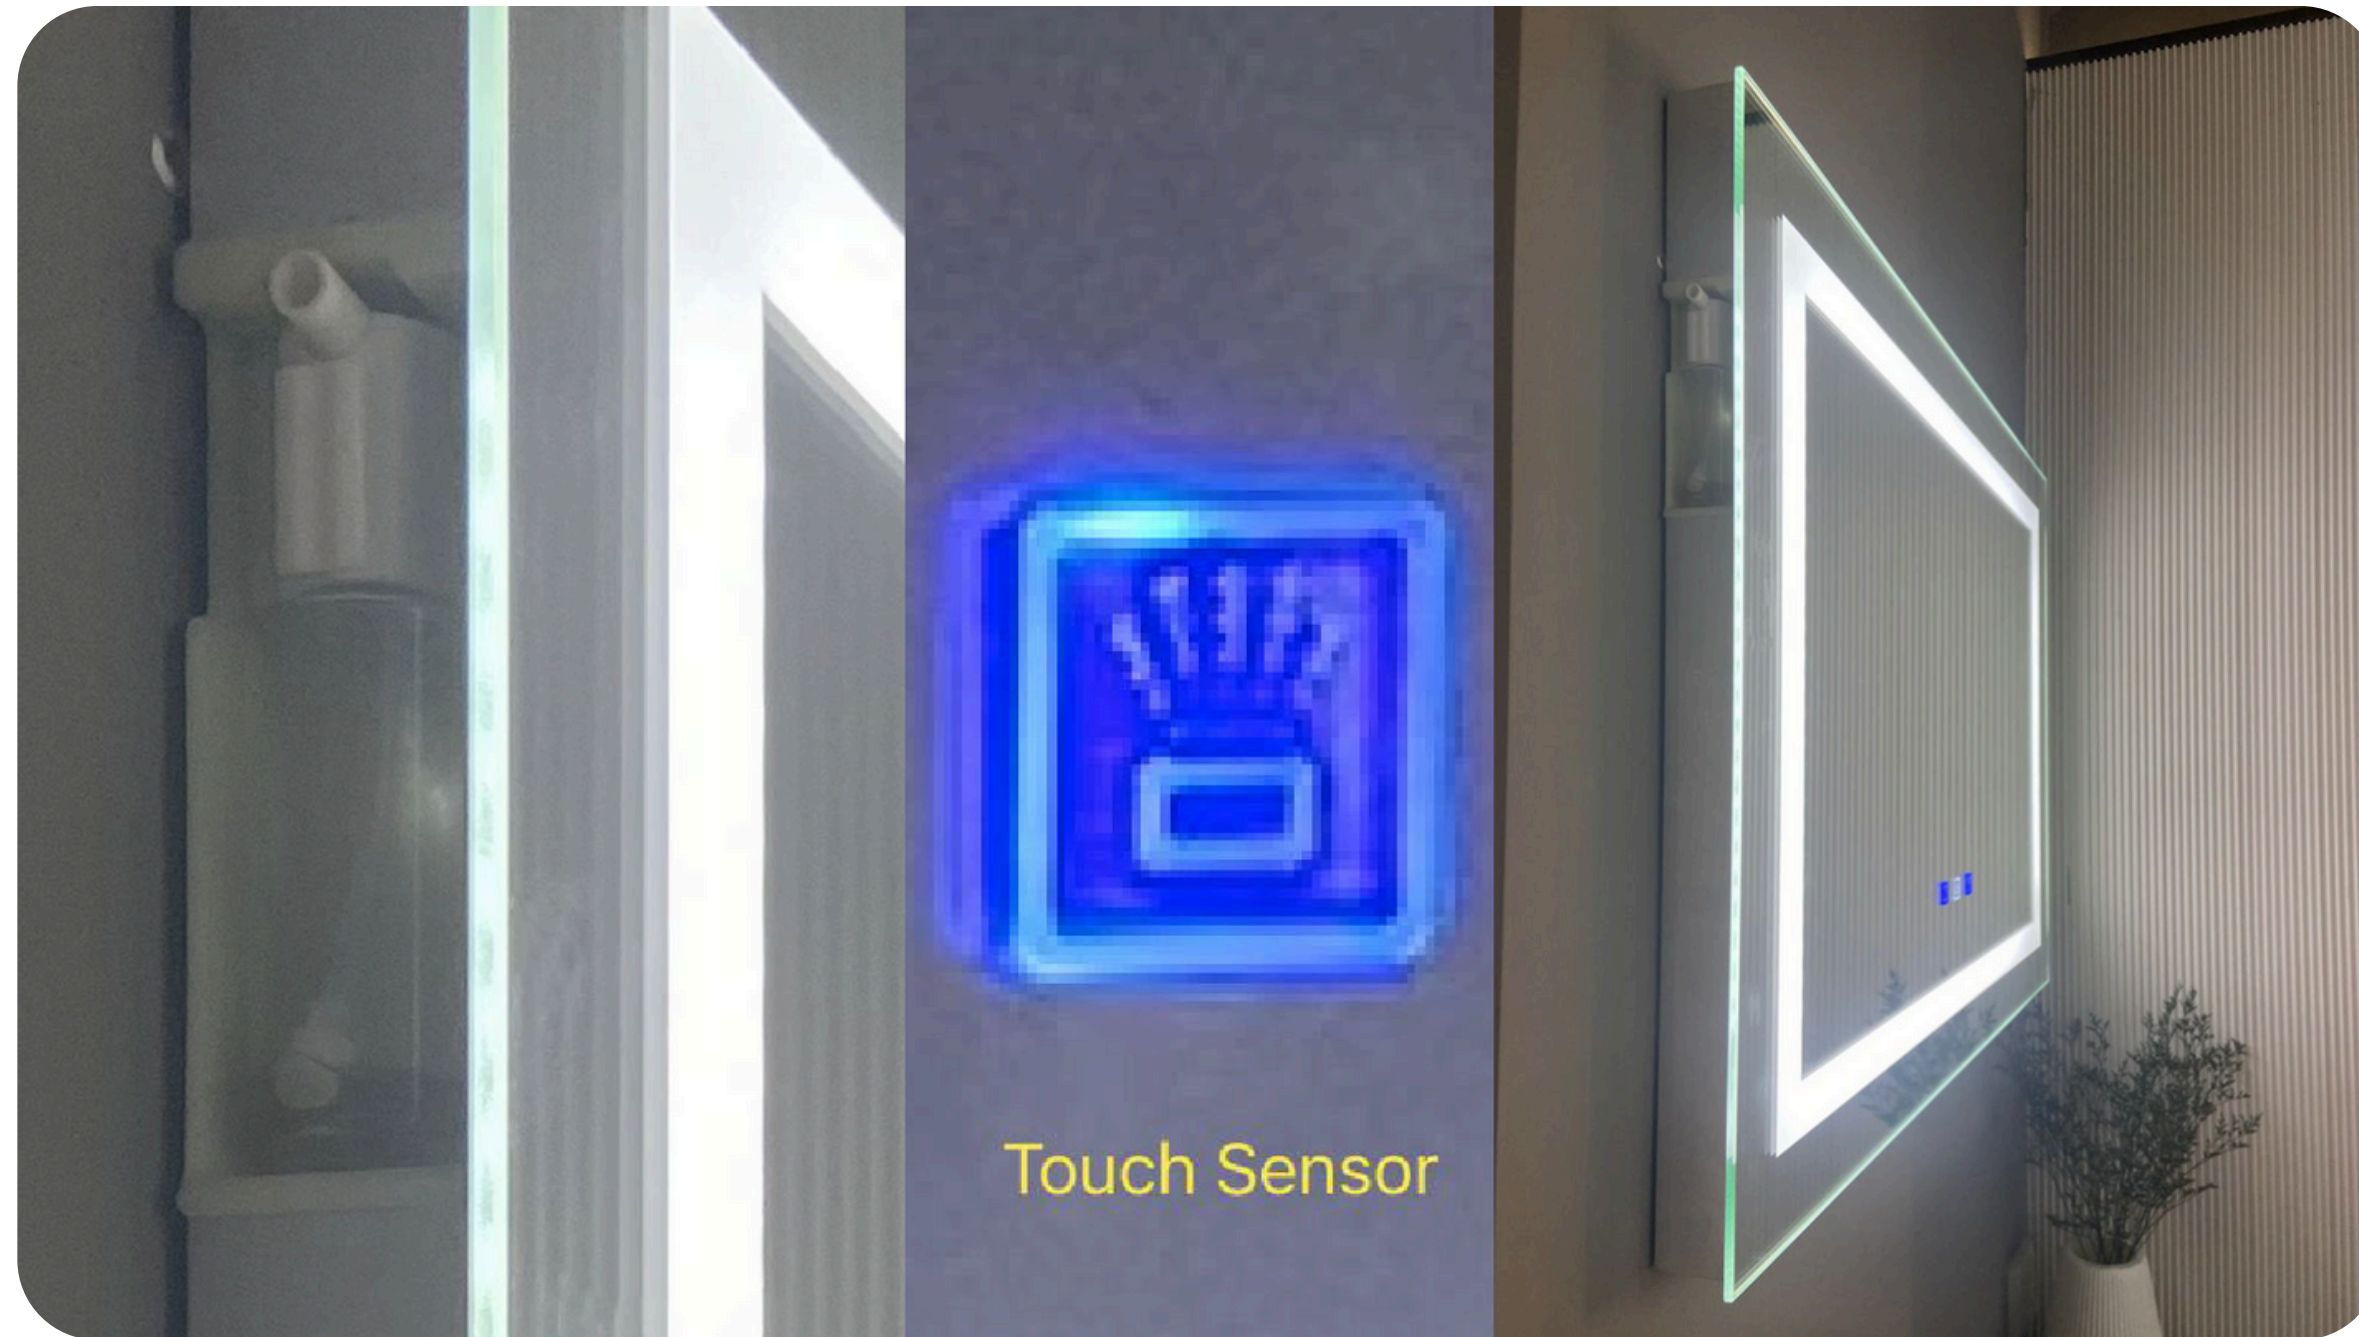

Elevate your bathroom experience with our fully bespoke illuminated medicine cabinets, designed to seamlessly blend functionality and style. Whether you choose a recessed or wall-mounted option, these cabinets are perfect for maximizing space and providing a sophisticated storage solution for your guests' amenities. Each cabinet is tailored to meet your specific needs, featuring customizable lighting to enhance visibility and add a touch of elegance to any bathroom decor. With our illuminated medicine cabinets, you can offer your guests a luxurious and practical addition that will leave a lasting impression.

Our touch screen options give guests total control over their preferences, ensuring a customized and comfortable experience. With the defogger feature, guests can always enjoy a clear view, even in steamy environments. The clock feature allows for easy timekeeping, while the dimming option lets users adjust the brightness to their liking. For those who prefer specific lighting hues, the adjustable color temperatures provide a range of options to suit any mood or activity. The nightlight setting offers a gentle glow for nighttime visibility without disturbing sleep. Additionally, the motion sensing feature enhances convenience and energy efficiency by automatically turning on the screen as soon as movement is detected.

A shaver socket installed within a mirror offers a blend of convenience and practicality, enhancing the overall guest experience while providing a cost-effective solution for electrical installations. Moreover, the consolidation of electrical components during the initial installation phase can cut down on labor and material costs, offering a sustainable and efficient approach for both residential and hospitality settings.

Adding an automatic air freshener or aromatherapy dispenser to a bathroom mirror offers numerous benefits. Firstly, it enhances the overall ambiance by continuously providing a pleasant and refreshing scent, creating a more inviting and relaxing environment. This can significantly improve the user experience, making daily routines like getting ready in the morning or winding down at night more enjoyable. Additionally, such a device can help neutralize odors, maintaining a consistently fresh-smelling bathroom. The convenience of automatic operation ensures that the air remains fresh without the need for manual intervention, saving time and effort. Overall, this smart addition can elevate both the functionality and aesthetic appeal of the bathroom space.
